HURRICANE EVO CENTURY

To celebrate its **centenary**, Veleria San Giorgio has designed a special life jacket, a model that celebrates the company's history with a view to the future.
This life jacket unites performance, safety and identity in a symbolic model developed for those who believe in the value of tradition and the strength of innovation.
Produced in a limited edition of just 100 pieces, this safety device represents the top-of-the-range version in the catalogue, bolstered by exclusive finishes that acknowledge this important milestone.
An item to be worn and collected, embodying 100 years of Italian excellence in safeguarding life at sea.

With this product, we aimed to blend tradition and innovation, delivering a result that reflects Veleria San Giorgio's ongoing commitment to safety.

Inflatable adult life jacket with automatic and/or manual activation,approved and certified per SOLAS or ISO 12402-3 (Class 150N). Actual buoyancy: 160N.In the automatic version, this life jacket is approved as mandatory onboard equipment for navigation without limits from the coast, in accordance with Italian regulations. Fitted with an integrated safety harness approved and certified per ISO 12401, it features a lateral quick-adjuster and OYSTER safety buckle.

High-tensile HDPE polymer fibre ring for use with a safety line. The accessories that come as standard include a sprayhood, automatic emergency light, double crotch strap and floating knife, all pre-fitted to the device. Supplied in a fabric and mesh carry bag. Designed for offshore leisure boating and use in extreme weather conditions, it allows the wearer to await rescue for extended periods, even in rough seas.

An ergonomic, enveloping design for smart, comfortable and functional wear, ensuring freedom of movement on board. To celebrate its centenary, Veleria San Giorgio has designed a special life jacket, celebrating the company's history with a view to the future. This life preserver combines performance, safety and identity in a symbolic model produced in a limited edition of 100 pieces, featuring an exclusive finish dedicated to this milestone.

CODE	PRODUCT NAME	ACTIVATION	ACTIVATOR
09320/CENTURY	HURRICANE EVO 160 CENTURY	AUTOMATIC	UML MK5
09350/CENTURY	HURRICANE EVO 290 CENTURY	AUTOMATIC	UML MK5
02140/HX/HUR/CENTURY	HURRICANE EVO SOLAS 170 CENTURY	AUTOMATIC	2 UML MK5
02130/HX/HUR/CENTURY	HURRICANE EVO SOLAS 310 CENTURY	AUTOMATIC	2 UML MK5

FEATURES	
Type	Inflatable life jacket
Activators	UML MK5 and mouth tube
Pocket	Waterproof accessories pocket
Chamber	33-gram ½" GAS threading
Actual buoyancy	160 N
Closure system	Safety harness with 45 mm strap with OYSTER SDC buckle and HDPE polymer fibre ring
Certifications	ISO 12402-3, ISO 12401 or SOLAS, ISO 12401
Size	Adult
Supported weight	> 40 kg
Waist cord	80 - 175 cm Oversized fit
Case	PL 600D PU COATED
Chamber	Single with X3D system, PA420 PU coated material, fluorescent yellow color.
Product packaging	Transport bag made of PL 4200 PU + WR coated, black color, with diamond ripstop pattern and PVC mesh.
Product dimensions	Approx. 64 x 40 x 7 cm
Product weight	16113 g. Approx.
Packaging	60 x 40 x 40 cm
Optional accessories	Safety line
Included accessories	Sprayhood, whistle, automatic emergency light, crotch strap, floating knife, rearming kit

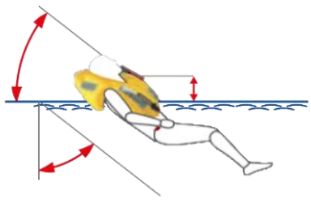
TECHNICAL SPECIFICATIONS

Single-compartment X3D system. 3-dimensional buoyancy chamber, made of PA 420 PU-coated fabric with electronically-controlled high-frequency welds.
The system ensures fast and immediate rotation of the body in the water.



ACTIVATION SYSTEM

Automatic - When the wearer falls overboard, the system automatically inflates the buoyancy chamber upon submersion. Automatic activation is possible with the UML MK5 saline inflator, which operates by dissolving a water-soluble tablet. The life jacket can also be manually activated by tugging on the dedicated pull cord.

Oral - To inflate the chamber, simply blow into the mouth tube. This feature is present both in self-inflating life jackets and in jackets with manual-only activation.

SPARE PARTS

Double crotch strap 09150

The use of this accessory improves the tilt, stability and positioning of the body in the water.

Floating knife MP1500

Equipped with a resin handle and an 18.5 × 7 centimetre stainless-steel serrated blade.

Sprayhood 09145/AR/GI

Reduces the risk of secondary drowning caused by inhaling water spray. Improves visibility and aids location of the person overboard.

Whistle 25180

A mandatory accessory that provides an emergency acoustic signal. Certified per ISO 12402-8.

Rearming

UML MK5: Re-arming kit (26233) – 33-gram cartridge

Light 03030

Activates automatically upon falling into the water. Visible up to one mile. Certified per SOLAS M.E.D. and USCG approved.

OPTIONAL ACCESSORIES

Elastic with 2 aluminium hooks 11177

Safety Strap Length: 2 metres
Material: Aluminium

2 aluminium hooks 11174

Safety Strap Length: 2 metres
Material: Aluminium

3 aluminium hooks 11175

Safety Strap Length: 1.4–2 metres
Material: Aluminium

Elastic with 2 steelhook11176

Safety Strap
Length: 2 metres
Material: Stainless steel (AISI)

2 steel hooks 11173

Safety Strap Length: 2 metres
Material: Stainless steel

Steel hook with ring 11178

Safety Strap Length: 2 metres
Material: Stainless steel

ESCLUSIVE SAFETY TECNOLOGIES

Safety at sea is our main priority. We manage all research, design and production processes with the utmost care so as to offer certified equipment for all nautical fields, with the highest production standards. All research and development activities are certified by the Department of Applied Science and Technology of the Polytechnic University of Turin, in accordance with EU regulations.

THE PRODUCTION PROCESS AND TRACEABILITY

With the aim of making inflatable life jackets more reliable, in 1994 Veleria San Giorgio introduced the Unique Product Code system. As the only manufacturer in the world to employ this type of technology, VSG is now able to identify all materials and individual components utilised through distinct alphanumeric codes.

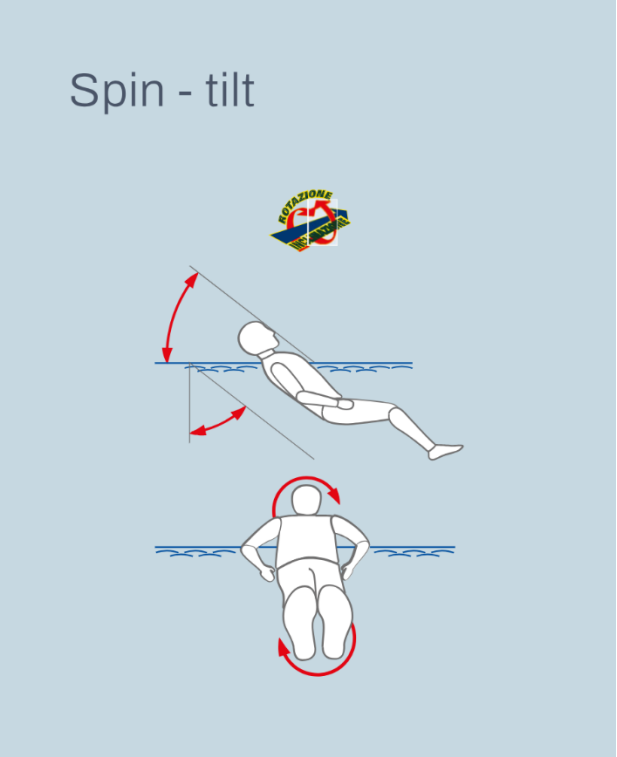
Production processes are controlled via software specially developed by VSG, covering 100% of production so each product can be traced back to its buyer with absolute precision. This drastically reduces manufacturing defects (less than 1/10000 of returns), guaranteeing each buyer a unique product in the truest sense of the word and – most importantly – the highest degree of safety when needed.

Thanks to their ergonomic features, our life jackets guarantee an optimal position in the water and great stability. In addition, the vests offer enough buoyancy to rotate and tilt an unconscious person, so as to always keep the airway out of the water.



The single-compartment X3D System three-dimensional buoyancy chamber is made of PA 420 OU COATED fabric with electronically controlled high-frequency welds. The system ensures rapid and immediate rotation of the body in the water.
