

MK10 - USCG SOLAS

MK10 USCG SOLAS is a life vest certified USCG SOLAS.

The vest is equipped with:

- Steel snap-hook and D-ring fastening, with a 25-mm strap positioned at the waist;
- A whistle secured to the vest and buddy line;
- Eight stitched retro-reflective bands, with four along the sides of the vest and four on the foldable neck.

The product MK10 USCG SOLAS is also available in sizes CHILD (Code: 02051) and INFANT (Code: 02052).

All sizes provide the possibility of inserting personalised information (badge, muster station, ship name, cabin) inside a special pocket in transparent PVC located on the front, bottom right of the jacket.

Designed for professional activities, the MK10's foldable neck also reduces storage space.

On the front of each MK10 vest are the Veleria San Giorgio logo, the SOLAS certification pictogram and a caption indicating the size: SOLAS FRONT ADULT/CHILD/INFANT.

On the inside are several illustrations explaining correct use (Donning Instructions).

The Mk10 USCG SOLAS life vest is designed and approved for the US market and for users requiring dual SOLAS and/or USCG certification.
