AGADIS

Art. 12030 – 12032 - 12034

The "Agadis" is a rigid floating lifesaving device, designed for professional use and coastal navigation. It is ideal for ensuring safety at sea, offering a reliable solution for quick and effective rescue in emergency situations. Manufactured according to the highest standards of quality and safety, it complies with current regulations, including the requirements of the Type Approval Decree DM 6/02/1990.
One of the main advantages of the Agadis is its ease of use: it requires no special training to be used correctly.

Key features:
• Structure: Shell made of high-density polyethylene, resistant to impact, corrosion, and weather conditions.
• Buoyant material: Certified expanded polyurethane, ensuring excellent buoyancy and long-lasting durability.
• Safety rope: White floating polypropylene rope, 10 mm in diameter, strong and easy to grip even in challenging conditions.
• Enhanced visibility: Equipped with SOLAS-approved retro-reflective tape, providing high visibility even in low-light conditions, aiding nighttime rescue operations.
• Capacity/Dimensions: Available in three versions to meet various operational needs.

Ref. 12030	4-person model	External dimensions: 93 x 93 x 25 cm	Internal side: 52 cm
Ref. 12032	8-person model	External dimensions: 93 x 93 x 25 cm	Internal side: 52 cm
Ref. 12034	12-person model	External dimensions: 100 x 100 x 30 cm	Internal side: 49 cm
