SAFETY BAG

THE INFLATABLE, WATERTIGHT BAG THAT FLOATS

SAFETY BAG VSG is a sturdy, watertight, floating shoulder bag designed to provide maximum protection in extreme environments and adverse conditions. Made in robust long-lasting materials, it features a special **hermetic zip closure** that acts as a **barrier to keep the contents safe and dry**.

Thanks to the presence of an **integrated oral tube**, the SAFETY BAG VSG can also be used, if necessary, as a **vacuum container**: an innovative solution for compressing and protecting clothing or other moisture-sensitive items.

The adjustable shoulder strap makes the bag comfortable to carry, while it is versatile enough for a wide range of outdoor activities, including **sailing, kayaking, trekking, camping and adventure travel**.

BREATHABLE AND REMOVABLE SHOULDER STRAP

The waterproof bag can float on the surface or be completely submerged as needed.

Features:
- Easy-grip, easy-open zip fastening;
- Simple, practical handle with two fixed rings to attach ropes or other items;
- Large transparent TPU window shows the items in the watertight zipped inner section, ideal for storing mobile phones, personal effects etc;
- The soft perforated shoulder strap is waterproof and broad to protect bare shoulders;
- Double-layer waterproof fabric;
- Available in black;
- Available in two sizes: 20L and 40L;
- Protection against water, sand and dust;
- Made in easy-to-clean, resistant TPU;
- Floating and watertight - must be closed correctly;
- Compact, functional design;
- Wide opening for easy access.
