

EXCLUSIVE SAFETY TECHNOLOGIES

Safety at sea is our main priority. We manage all research, design and production processes with the utmost care so as to offer certified equipment for all nautical fields, with the highest production standards.

All research and development activities are certified by the Department of Applied Science and Technology of the Polytechnic University of Turin, in accordance with EU regulations.

THE PRODUCTION PROCESS AND TRACEABILITY

With the aim of making inflatable life jackets more reliable, in 1994 Veleria San Giorgio introduced the Unique Product Code system. As the only manufacturer in the world to employ this type of technology, VSG is now able to identify all materials and individual components utilised through distinct alphanumeric codes.

ALPHANUMERIC CODES PRINTED ON EACH CHAMBER

È CONFORME ALLA NORMA / IS IN COMPLIANCE WITH THE STANDARD

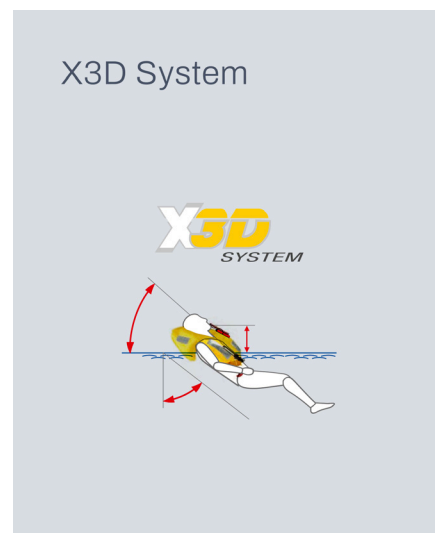

ISO 9001:2015

Production processes are controlled via software specially developed by VSG, covering 100% of production so each product can be traced back to its buyer with absolute precision. This drastically reduces manufacturing defects (less than 1/10000 of returns), guaranteeing each buyer a unique product in the truest sense of the word and – most importantly – the highest degree of safety when needed.

Thanks to their ergonomic features, our life jackets guarantee an optimal position in the water and great stability. In addition, the vests offer enough buoyancy to rotate and tilt an unconscious person, so as to always keep the airway out of the water.

The three-dimensional X3D system with single-compartment flotation chamber is made of PA 420 OU COATED material with electronically-controlled high-frequency welding. The system ensures the quick and immediate rotation of the body in the water.

MODULE CP1530 160

Inflatable life vest for adults. Approved and certified by SOLAS M.E.D.
Safety device developed to technical specifications for the Italian Coast Guard - Port Authorities.
The jacket comes with integrated safety harness and dual-compartment chamber. Two independent activation systems with pressure relief valve.

Casing in high-strength material, with zip opening/closing and quick system opening system suitable for chamber expansion.

On the collar, at the nape of the neck, is a detachable, washable fleece-lined collar to ensure adequate comfort for the wearer.

On the left side of the casing is an inspection window at the base for checking the status of the activation system, without having to open the casing itself.

On the same side, at the top, is a band for attaching the VHF unit's microphone.

On the right side of the casing, at the base, is the corresponding female Velcro piece to hold the user's identification. A band of the size required to secure the VHF unit should be found on the same side.

Equipped with: automatic light, Buddy System, crotch strap, floating knife, emergency signal pouches.

CHARACTERISTICS	
Code: 02142/CP1530	
Type	Inflatable life vest
Activators	02142/CP1530 - SAA Hammar MA1 EC automatic Mouth tube on all versions
Canister	33 g 1/2" GAS threading
Effective buoyancy	160 N
Class	150
Fastening mechanism	Safety harness with 45-mm strap and side adjuster, fastening system with steel clasp and safety strap ring
Certifications	SOLAS M.E.D.
Size	Adult
Weight supported	> 40 kg
Waist circumference	80 - 125 cm
Casing	PL 600D PU COATED material, blue and orange in colour
Chamber	Chamber with X3D system, PA 420 PU COATED material, fluorescent or Spanish yellow in colour
Product packaging	PL 600D PU COATED carry bag
Product dimensions	50x30x5 cm
Product weight	1.800 g
Packaging	60x40x40 cm (box of 8 items)
Warranty	24 months
Servicing	Every 24 months
Accessories on request	automatic emergency light, lightstick, safety line
Spare parts	re-arming kit
Veleria San Giorgio reserves the right to modify the technical specifications without prior notice	

DONNING INSTRUCTIONS

MODULE CP1530 160

Inflatable life jacket, ISO SOLAS M.E.D. certified, class 150, effective buoyancy 260 N, integrated ISO 12401 harness with steel clasp with quick side adjuster.

Individual safety device made specifically for the Coast Guard - Port Authority operators.

Provides maximum safety for any type of navigation.

Easy and intuitive to wear, it offers the utmost freedom and mobility aboard during navigation manoeuvres.

CASING FEATURES

- Velcro closure
- Steel clasp with quick side adjuster
- Safety line ring
- Floating knife
- Polyester accessory pouches
- Rescue aid handle
- Lifting handle

LEGEND

- DAA - Dual Automatic Activator
- DAAM - Double Automatic and Manual Activator
- SAA - Single Automatic Activator

35F;H3F;A@EKEF7? E,

- Automatic - Upon falling into the water, the system automatically activates within 5 seconds of submersion, with the inflation of the floatation chamber. Automatic activation is possible via the Hammar hydrostatic system.
- Manual - The system is operated through pulling the dedicated lever. The product comes with the manual Hammar activator and is activated exclusively by hand.
- Oral - This type of inflation is achieved via the special mouth tube, with a non-return valve and protective cap. To inflate the chamber, simply blow into the tube.
