REARMING KIT HR

"The HR Rearming Kit is a rearming kit designed to restore the proper functioning of lifejackets equipped with the Halkey Roberts V9000 automatic mechanism. This kit ensures reliable and safe reactivation after each use of the lifesaving device, whether for recreational or professional nautical activities."

- 1 Water-soluble tablet – Dissolves upon contact with water for automatic activation
- 1 Green pin – Visual indicator of the activation mechanism status
- 1 CO_2 canister – Available in 24 g, 33 g, 38 g and 60 g capacities
