

EXCLUSIVE SAFETY TECHNOLOGIES

Safety at sea is our main priority. We manage all research, design and production processes with the utmost care so as to offer certified equipment for all nautical fields, with the highest production standards.

All research and development activities are certified by the Department of Applied Science and Technology of the Polytechnic University of Turin, in accordance with EU regulations.

THE PRODUCTION PROCESS AND TRACEABILITY

With the aim of making inflatable life jackets more reliable, in 1994 Veleria San Giorgio introduced the Unique Product Code system. As the only manufacturer in the world to employ this type of technology, VSG is now able to identify all materials and individual components utilised through distinct alphanumeric codes.

ISO 9001:2015

Production processes are controlled via software specially developed by VSG, covering 100% of production so each product can be traced back to its buyer with absolute precision.

This drastically reduces manufacturing defects (less than 1/10000 of returns), guaranteeing each buyer a unique product in the truest sense of the word and - most importantly - the highest degree of safety when needed.

Thanks to their ergonomic features, our life jackets guarantee an optimal position in the water and great stability. In addition, the vests offer enough buoyancy to rotate and tilt an unconscious person, so as to always keep the airway out of the water.

SKIPPER CHILD 150

Inflatable life vest for children, ISO 12402-3 certified, class 150, effective buoyancy 100 N, quick-release side clasp closure system in acetal resin with integrated adjustment.

Designed for leisure activities in the open sea and/or under adverse weather conditions, it guarantees maximum safety for any type of navigation.

Made to be easily worn and quickly activated even by younger navigators (weighing between 20 to 50 kg). The quick-release closure is designed for ease-of-use.

PRODUCT CHARACTERISTICS

- Velcro closure/opening
- Quick-release clasp with integrated side adjustment
- Double crotch strap
- Rescue aid handle
- Lifting handle

LIFEJACKET MANUFACTURER

SKIPPER CHILD 150

CHARACTERISTICS	
Codes: 09225/24/	
Type	Inflatable life vest
Activators	UML MK5 (code: 09225) with automatic mouth tube on all versions
Canister	24 g 1/2" GAS threading
Effective buoyancy	100 N
Class	150
Fastening mechanism	Quick-release side clasp in acetal resin with integrated adjustment
Certifications	ISO 12402-3
Size	Child
Weight supported	20-50 kg
Waist circumference	60-80 cm
Casing	PL 600D PU COATED material in blue/yellow and orange/yellow
Chamber	Single, PA 420 PU COATED material, in fluorescent or Spanish yellow colour
Product packaging	Carry case in PL 200D
Product dimensions	Approx. 42x29x5 cm
Product weight	Approx. 660 grams
Packaging	60x40x40 cm (box with 16 items)
Warranty	24 months
Servicing	Every 24 months
Accessories on request	Automatic emergency light
Spare parts	Whistle, re-arming kit
Veleria San Giorgio reserves the right to modify the technical specifications without prior notice	

SKIPPER CHILD 150

A floatation chamber with single compartment in PA 420 PU COATED material with electronically-controlled high-frequency welds. Provides optimal positioning and perfect stability in the water. The thrust rotates an unconscious person and angles them so as to keep their airway free of water. What's more, once the chamber is inflated, it is possible to swim unimpeded to reach safety or to quickly climb into a lifeboat.

ACTIVATION SYSTEMS:

- Automatic - Upon falling into the water, the system automatically activates within 5 seconds of submersion, with the inflation of the floatation chamber. Automatic activation is possible with the salt activator UML MK5, through the dissolution of a water-soluble tablet.
- Oral - This type of inflation is achieved via the special mouth tube, with a non-return valve and protective cap. To inflate the chamber, simply blow into the tube.

SKIPPER CHILD 150

SPARE PARTS

Re-arming
UML: re-arming kit (26224), water-soluble tablet (25005), green MK5 pin (25003/MK5) 24-gram canister (26024)

	Whistle	25180
	A mandatory accessory that permits an emergency sound signal to be issued. ISO 12402-8 certified	

ACCESSORIES

	LED light	03030
	Automatically activates upon falling into the water. Renders the device visible for up to a mile. SOLAS M.E.D.-certified and USCG approved.	

	W470 MOB AIS	41012
	A small and lightweight personal safety device, operating on the VHF maritime band as MOB AIS plus Homing VHF 121.5 MHz, complete	

	MOB1 AIS	41010
	The world's smallest AIS Man Overboard personal tracking device with integrated DSC	

	PLB3 AIS	41011
	Personal locator with AIS, RLS and NFC mobile connectivity
