

INFLATABLE HORSESHOE LIFEBUOY

Art. 12041

The 150 N inflatable horseshoe lifebuoy is a rescue device designed for the rapid recovery of a person overboard. Compact and lightweight when stored, it is intended for immediate use in emergency situations on both leisure and professional vessels.

The activation system is automatic (upon contact with water) and manual, ensuring maximum versatility of use. Rapid inflation is guaranteed by a 33-gram CO₂ cylinder, allowing the device to quickly reach full functionality.

LIFEJACKET MANUFACTURER

The horseshoe is designed to provide effective buoyancy support, keeping the person in a stable position and facilitating recovery operations. The device is also equipped with **high-visibility reflective tape**, improving detectability even in low-light or reduced-visibility conditions. To enhance safety, it includes an **acoustic signal whistle**, useful for attracting attention during emergencies.

Thanks to its practicality, reliability, and rapid deployment, it represents an essential solution for onboard safety and timely rescue operations at sea.

Specifications Art. 12041	
Product type	Inflatable horseshoe lifebuoy
Category	Buoyancy device
Buoyancy	150 N
Inflation system	Automatic
Activation	Water-soluble tablet and manual pull cord
CO ₂ cylinder	33 g, replaceable
