

LIGHT L001

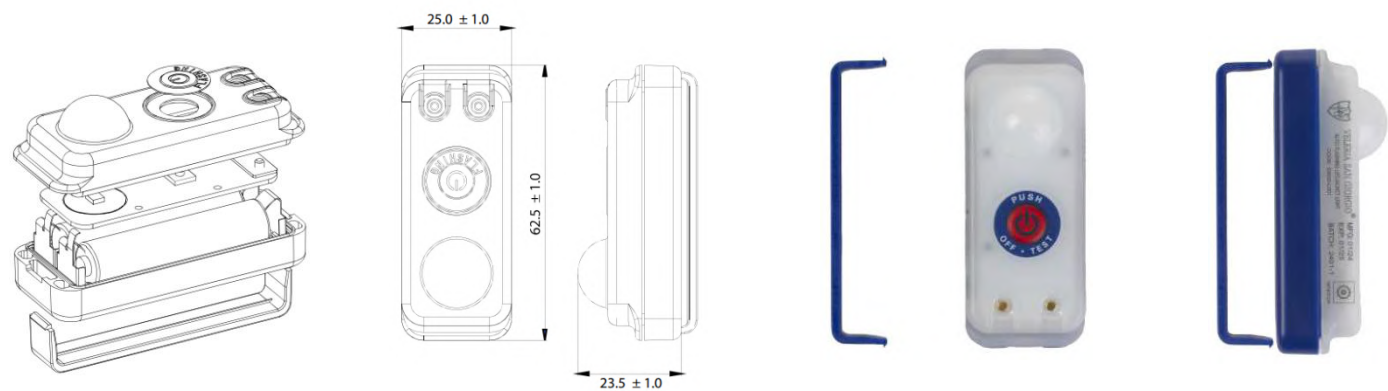

Art. 03030

Flashing Light certified SOLAS M.E.D. and USCG APPROVED, ensuring maximum safety and visibility in marine environments.

Automatically activated upon contact with water or manually, it is made of durable polycarbonate and equipped with a white SMT LED light and integrated alkaline battery.

It features a button for functional testing, includes a clip for strap mounting and a support for inflatable lifejackets.

Packaged in an Eco-Box made of water-painted cardboard, it combines reliability, efficiency, and sustainability in a compact and lightweight design
