

VIRGO RING COVER

Art. 14022/25 e 14023/25

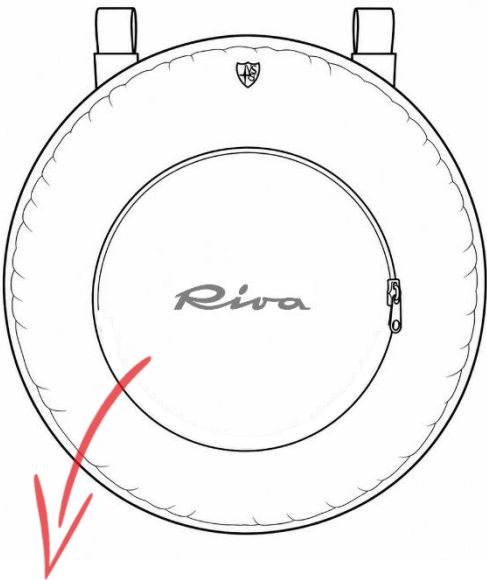

The Virgo Lifebuoy Cover is designed to protect the ring lifebuoy from weather, UV radiation, salt spray, and dirt, keeping it in excellent condition and ready for immediate use. Manufactured from high-strength technical fabric with a water-repellent finish, it provides outstanding durability even in harsh marine environments. The practical external pocket offers convenient storage for the floating lifeline or other emergency accessories, keeping them neatly organized and readily accessible.

Ideal for installation on:

- Stainless steel brackets for recreational boats and yachts
- Commercial vessels
- Ports and marinas
- Piers and docks
- Offshore platforms
- Industrial facilities

Key Benefits

- Rope storage pocket / accessory holder
- Quick-release closure for immediate use
- Easy to install
- Highly resistant to water and saltwater
- UV-resistant
- Abrasion-resistant fabric
- Dual mounting position on the grab rail (ring holder)

Custom branding available upon request
