

KIT OF DISTRESS SIGNALS

Art. 03104 – 03108 – 03106 - 03107

Kit of distress signals for recreational boating, available in configurations that comply with current regulations based on the required navigation distance from the coast.

Each kit includes a selection of pyrotechnic emergency signals, such as hand flares, smoke signals, and parachute rockets, designed to provide maximum effectiveness in indicating the vessel's position during an emergency, both by day and by night. These devices ensure excellent long-range visibility and are an essential part of the onboard safety equipment, helping to attract the attention of rescue services or nearby vessels.

To preserve their performance over time, the distress signals are stored inside a practical waterproof dry bag made from high-strength PVC.

The watertight closure protects the contents from water, moisture, dust, and harsh weather conditions, helping keep the devices in optimal condition until they are needed.

The high-visibility yellow color makes the bag easy to locate onboard, even in emergency situations or low-light conditions, while its compact design allows for convenient storage and easy transport.

AVAILABLE CONFIGURATIONS

- Distress signal kit for onboard safety equipment.
- Configurations compliant with the required navigation category.
- Pyrotechnic distress signals for both daytime and nighttime emergencies.
- Waterproof dry bag made from durable technical fabric, compact and hard-wearing.
- Protects against water, moisture, and harsh weather conditions.
- High-visibility yellow color for quick identification onboard.
- Ideal for recreational boats and other pleasure craft.

Cod. 03104 Navigation within 3 nautical miles of the coast

- 1 Floating smoke signal
- 2 Red hand flares
- 1 Waterproof dry bag

Cod. 03108 Navigazione entro 50/12/6 miglia

- 2 Floating smoke signals
- 2 Red hand flares
- 2 Red parachute rockets
- 1 Waterproof dry bag

Cod. 03107 Navigazione senza limiti

- 2 Floating smoke signals
- 3 Red hand flares
- 3 Red parachute rockets
- 1 Waterproof dry bag

WARNINGS

Store the distress signals in a dry, protected place

Check the expiry date of the devices regularly.

Use only in emergency situations and in accordance with applicable regulations.

Dispose of expired devices in compliance with applicable regulations..
