

# MARTINICA

MARTINICA, an ISO 12402-3 certified life jacket equipped with the fast-rotation system for VSG rigid devices, designed and developed by Veleria San Giorgio. With this system, thanks to the particular cutting and positioning of the expanded material, the rotational and tilting thrust of the body is guaranteed.

Designed for recreational activities carried out offshore and/or in adverse weather conditions, allowing the wearer to safely await potential rescue even in rough waters.

All this is made possible by the buoyant masses positioned on the chest which, thanks to the deliberate asymmetry between the right and left sides and their central positioning at sternum level extending downward, ensure rotational speed and the correct degrees of body inclination.

## Available in the following versions:

- 08211/1 - XXS version
- 08212/1 - XS version
- 08213/1 - S version
- 08214/1 - M version
- 08215/1 - L version
- 08216/1 - XL version
- 08217/1 - XXL version

## Closing and adjustment systems:

- 40 mm waist strap with acetal quick-release buckle
- 30 mm neck strap with acetal buckle for attaching an emergency light and whistle
- Retro-reflective straps
- Rescue handle

## Capability to mount all types of lights:

- VSG Light - Art. 03030
- Daniamant W4-A - Art. 03014
- Daniamant W4-A with housing - Art. 03014 housing
- Electric Fuel ALX - Art. 03015
